Link to EYFS Unique Child 1.3 Keeping Safe

Aim

To keep your child safe from harm whilst learning about the responsibilities of pets

Procedure

Mickey is a Jack Russell who loves children and who I do like to include with the children although bed, feed and drink bowl are in the kitchen which has a stair gate.

I ensure that if the children touch the dog, they will wash their hands.

The garden for the children is segregated from the dog therefore no trace of dog mess at all.

Mickey spends a lot of his time in my husband's office and is not downstairs therefore causing no interference.

I discourage the children to tease the dog as this could lead to repercussions.
